Professional Summary

Cybersecurity analyst and purple teamer with 3+ years of experience securing AWS, Azure, and Microsoft 365. Leads a three-person penetration testing team assessing AI systems, web applications, APIs, and cloud environments. Experience in incident response, identity and access management, security automation, and NIST-aligned risk assessments and compliance.

Professional Experience

TiQHUB, LLC | Remote — Oct 2023 - Present

Cybersecurity Analyst

- Lead a three-person penetration testing team for internal and client engagements across AI systems, web applications, APIs, and cloud environments.
- Plan and execute assessments using OWASP, MITRE ATT&CK, NIST SP 800-115, and the Penetration Testing Execution Standard (PTES); map remediation recommendations to NIST SP 800-53 controls.
- Lead incident response from detection through recovery, maintain response procedures, and run response exercises with engineering and IT teams.
- Harden AWS, Azure, Microsoft 365, Windows, and macOS using CIS, CISA, DISA STIG, and NCSC guidance; apply Zero Trust principles and automate checks with PowerShell and Bash.
- Implement and audit NIST SP 800-171 Rev. 2 controls for Azure and Microsoft 365, covering architecture, configuration, audit evidence, and continuous monitoring.
- Assess vendor and product risk before purchase through security reviews and questionnaires; evaluate open-source software for vulnerabilities, license risks, and supply-chain issues.
- Conduct risk assessments, threat modeling, and user access reviews aligned with NIST CSF and ISO 27001; prioritize remediation and enforce least-privilege access.
- Develop security and administration scripts, integrate open-source tools, maintain policies and records, and deliver phishing and social engineering awareness training.

TiQHUB, LLC | Remote — Jun 2023 - Oct 2023

Cybersecurity Analyst (Trainee)

- Developed security procedures aligned with NIST SP 800-171 Rev. 2 and CIS and CISA guidance.
- Strengthened Microsoft 365 security settings and hardened Windows and macOS endpoints using Microsoft Intune.

Technical Skills

Security testing: Penetration testing, vulnerability assessment, network and Active Directory testing, secure code review, STRIDE and PASTA threat modeling.

Testing tools: BloodHound, Certipy, Impacket, NetExec, Sliver C2, Metasploit, Caido, Nmap, FFUF.

Cloud and identity: AWS, Azure, Microsoft 365, Microsoft Entra ID, Intune, identity and access management (IAM), Azure RBAC, Privileged Identity Management (PIM), Conditional Access, Zero Trust.

Cloud monitoring: Microsoft Sentinel, Defender for Cloud, Defender for DevOps, Azure Firewall, Log Analytics, Azure Policy, Key Vault.

Automation and assessment: PowerShell, Python, Bash, Bicep, Azure DevOps, GitHub Actions, Maester, Prowler, ScubaGear, OpenIntuneBaseline, Robopack.

Frameworks and standards: NIST CSF, NIST SP 800-53, NIST SP 800-171 Rev. 2, NIST SP 800-115, ISO 27001, ISO 42001, OWASP, MITRE ATT&CK, PTES.

AI-assisted workflows: Claude for log analysis, reconnaissance review, and report drafting, with manual validation of all output.

Certifications

Microsoft Certified: Azure Administrator Associate (AZ-104) | Microsoft | Oct 2026

Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft | Aug 2026

Certified Red Team Professional (CRTP) | Altered Security | May 2026

Certified Web Exploitation Specialist (CWES) | HTB Academy | 2026

Certified Multi-Cloud Red Team Analyst (MCRTA) | CyberWarFare Labs | Nov 2025

Practical Junior Penetration Tester (PJPT) | TCM Security | Mar 2025

Google Cybersecurity Professional Certificate | Google / Coursera | Oct 2023

In progress: Microsoft SC-500

Practical Projects

Microsoft 365 and Windows Automation
Built PowerShell and Python tools for Microsoft 365 and Windows administration; validated changes in a lab before production use.

Azure Cloud Security
Built labs for identity, network security, logging, and secure deployment pipelines. Mapped configurations to Microsoft Cloud Security Benchmark, CIS, NIST SP 800-53, and ISO 27001.

Home Security Lab
Reproduce Active Directory and cloud attack paths, test web applications and APIs, and retest remediation against the same attacks.

Education

Master of Computer Applications Jun 2026
SRM Institute of Science and Technology, Chennai | GPA: 9.0 / 10

B.Sc. Computer Technology May 2023
Dr. SNS Rajalakshmi College of Arts and Science, Coimbatore | GPA: 8.4 / 10
